Carson City, NV— The Carson Nugget unveiled its newly remodeled banquet facilities to members of the Carson City Chamber “Breakfast Club” this week.

Star Anderson, General Manager of the Carson Nugget told the group; “The old, dated colors are gone and what you see now is a clean, modern facility that can serve a variety of needs from gatherings as small as 10 to as large as 400.” She added; “This type of facility is one that is very much needed in the Carson City area and we are happy to fill that need.”

The new banquet facilities offer catering services. The Carson Nugget staff showed off its culinary talents to the group of about 50 members treating them to a breakfast buffet featuring eggs benedict, poached salmon, fresh fruits and breads as well as made-to-order omelets.

The Carson Nugget banquet facilities are among the largest, most flexible meeting spaces in the Carson City area providing more than 10,000 square feet of space. The facilities can accommodate a variety of needs including fundraisers, corporate gatherings, parties, and wedding receptions.

This upgrade is part of several upgrades in recent years at the Carson Nugget.

“We’ve remodeled the City Center Hotel, all of our restaurants as well as the restroom facility. There is also new carpet and new technology on our gaming floor;” Anderson told the group. “All of this has been paid for using the cash flow from our profits and we intend to make even more improvements in the coming years. If you haven’t been to the Carson Nugget in a while, we invite you to visit us and see for yourself.”
